

AUS Navigation Comparison

Required navigation compared with the current website implementation

Conclusion. The navigation needs a structural rebuild. The current desktop header exposes only Programs, About, and Campus Life, while the directive requires six top-level sections and four global utility actions. The shared menu pattern is currently used across all 37 HTML pages in the website folder.

Top Level Navigation

Required section	Current implementation	Required action
Programs	Present in desktop header and off canvas menu. Includes degree groups and individual program links.	Keep and expand. Add Find Your Program and Compare Programs. Rename Bachelors Degree and Masters Degree.
Admissions	Only in the off canvas menu. Contains Admissions and Financing, Cost Calculator, and Academic Calendar.	Promote to desktop header and rebuild with the complete requested submenu.
Tuition and Scholarships	Missing. Cost Calculator sits under Admissions.	Add as a top level section. Move Cost Calculator here and add finance links.
Careers and Outcomes	Missing.	Add as a top level section with the full required submenu.
Student Life	Present as Campus Life with only Campus Life and Student Life links.	Rename and expand to the requested Student Life structure.
About AUS	Present as About with a partial list of institutional links.	Rename and reorganize to match the directive.

Programs

Global Utility Actions

Directive requirement	Current status	Action
Search or Ask AUS	Search input exists with Ask AUS Anything placeholder	Keep. Label consistently as Search or Ask AUS and implement grouped search results.
My Programs	Missing	Add and connect to saved programs.
Talk to Admissions	Present as Contact and links to a HubSpot form	Rename and confirm it opens the admissions specific contact flow.
Apply	Present	Keep as the strongest conversion action. Standardize visible wording to Apply or Apply Now.

Required Relocation and Cleanup

- Rename About to About AUS and Campus Life to Student Life.
- Split Admissions and Financing: the admissions hub stays under Admissions, while tuition and finance content moves to Tuition and Scholarships.
- Move Cost Calculator from Admissions to Tuition and Scholarships.
- Move the generic FAQ from About to Admissions and Tuition and Scholarships, using either topic anchors or dedicated section FAQs.
- Move Academic Calendar beneath Application Deadlines or a relevant Admissions resource location.
- Place the IBM and Tiffin collaboration pages beneath Industry Partners and Academic Partners respectively.
- Keep Policies and Procedures in the footer rather than the main navigation.
- Remove the hidden Accreditations TEMP and Memberships placeholder link.

Implementation Requirements

- Desktop and mobile must expose the same six primary sections and the same essential paths.
- Use a desktop mega menu and a mobile accordion if desired, but keep their information architecture identical.
- Each primary navigation item must be directly understandable and readily navigable on desktop and mobile.
- Do not publish a new navigation destination with a placeholder link.
- Apply remains visually stronger than Talk to Admissions.
